ABOUT ME

Vice President of ESN Milano Statale and IT Manager of ESN Italy, I am also a member of ESN International's IT Committee and of the EGM 2027 Programme Team. I hold a Master's in Computer Science from the University of Milan, with an Erasmus exchange at the University of Copenhagen and a thesis at Loughborough University, and I am now doing a PhD at the Max Planck Institute for Software Systems, in Germany. In ESN I have worked at local, national and international level, across IT, culture, mentoring, event organisation and training. I truly enjoy ESN and love stepping out of my comfort zone.
